

# CAPABILITY STATEMENT

**NEXPAVE**

Nexpave is local expertise with a new name. We're the same smiling faces and offer the same reliable quality services - that you have learnt to trust over the last 15 years. Our Lismore based team brings an abundance of local knowledge, with over 200-years combined experience in the road construction and asphalt industries. Successfully delivering our same range of projects large and small.

Nexpave offers multidisciplinary solutions across the road surfacing and civil construction sectors. Using our local knowledge and industry advanced technology, every day, is what we do best to increase efficiencies and productivity with the aim of providing competitively priced services.

## SECTORS WE WORK IN

### RESIDENTIAL

Our residential asphalt services include driveways and walking paths.

Our team has placed over 3,750 driveways in the far north coast area.

### COMMERCIAL

Our commercial services include carparks, commercial subdivisions and residential subdivisions pavements and sports services.

Our company leaders have delivered over 500,000 tonnes of asphalt to local subdivisions, carparks and commercial developments.

### GOVERNMENT

We keep road surfaces clean and safe for our roads and highways.

Delivering local road maintenance across Northern NSW & QLD since 2007 our team work with locals to deliver the road infrastructure that connects our regions.

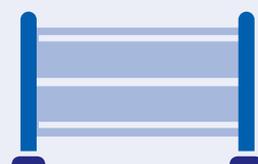

## OUR SERVICES

ASPHALT AND BITUMEN SURFACING

LINE MARKING

ROAD FURNITURE, MAINTENANCE AND UPGRADE

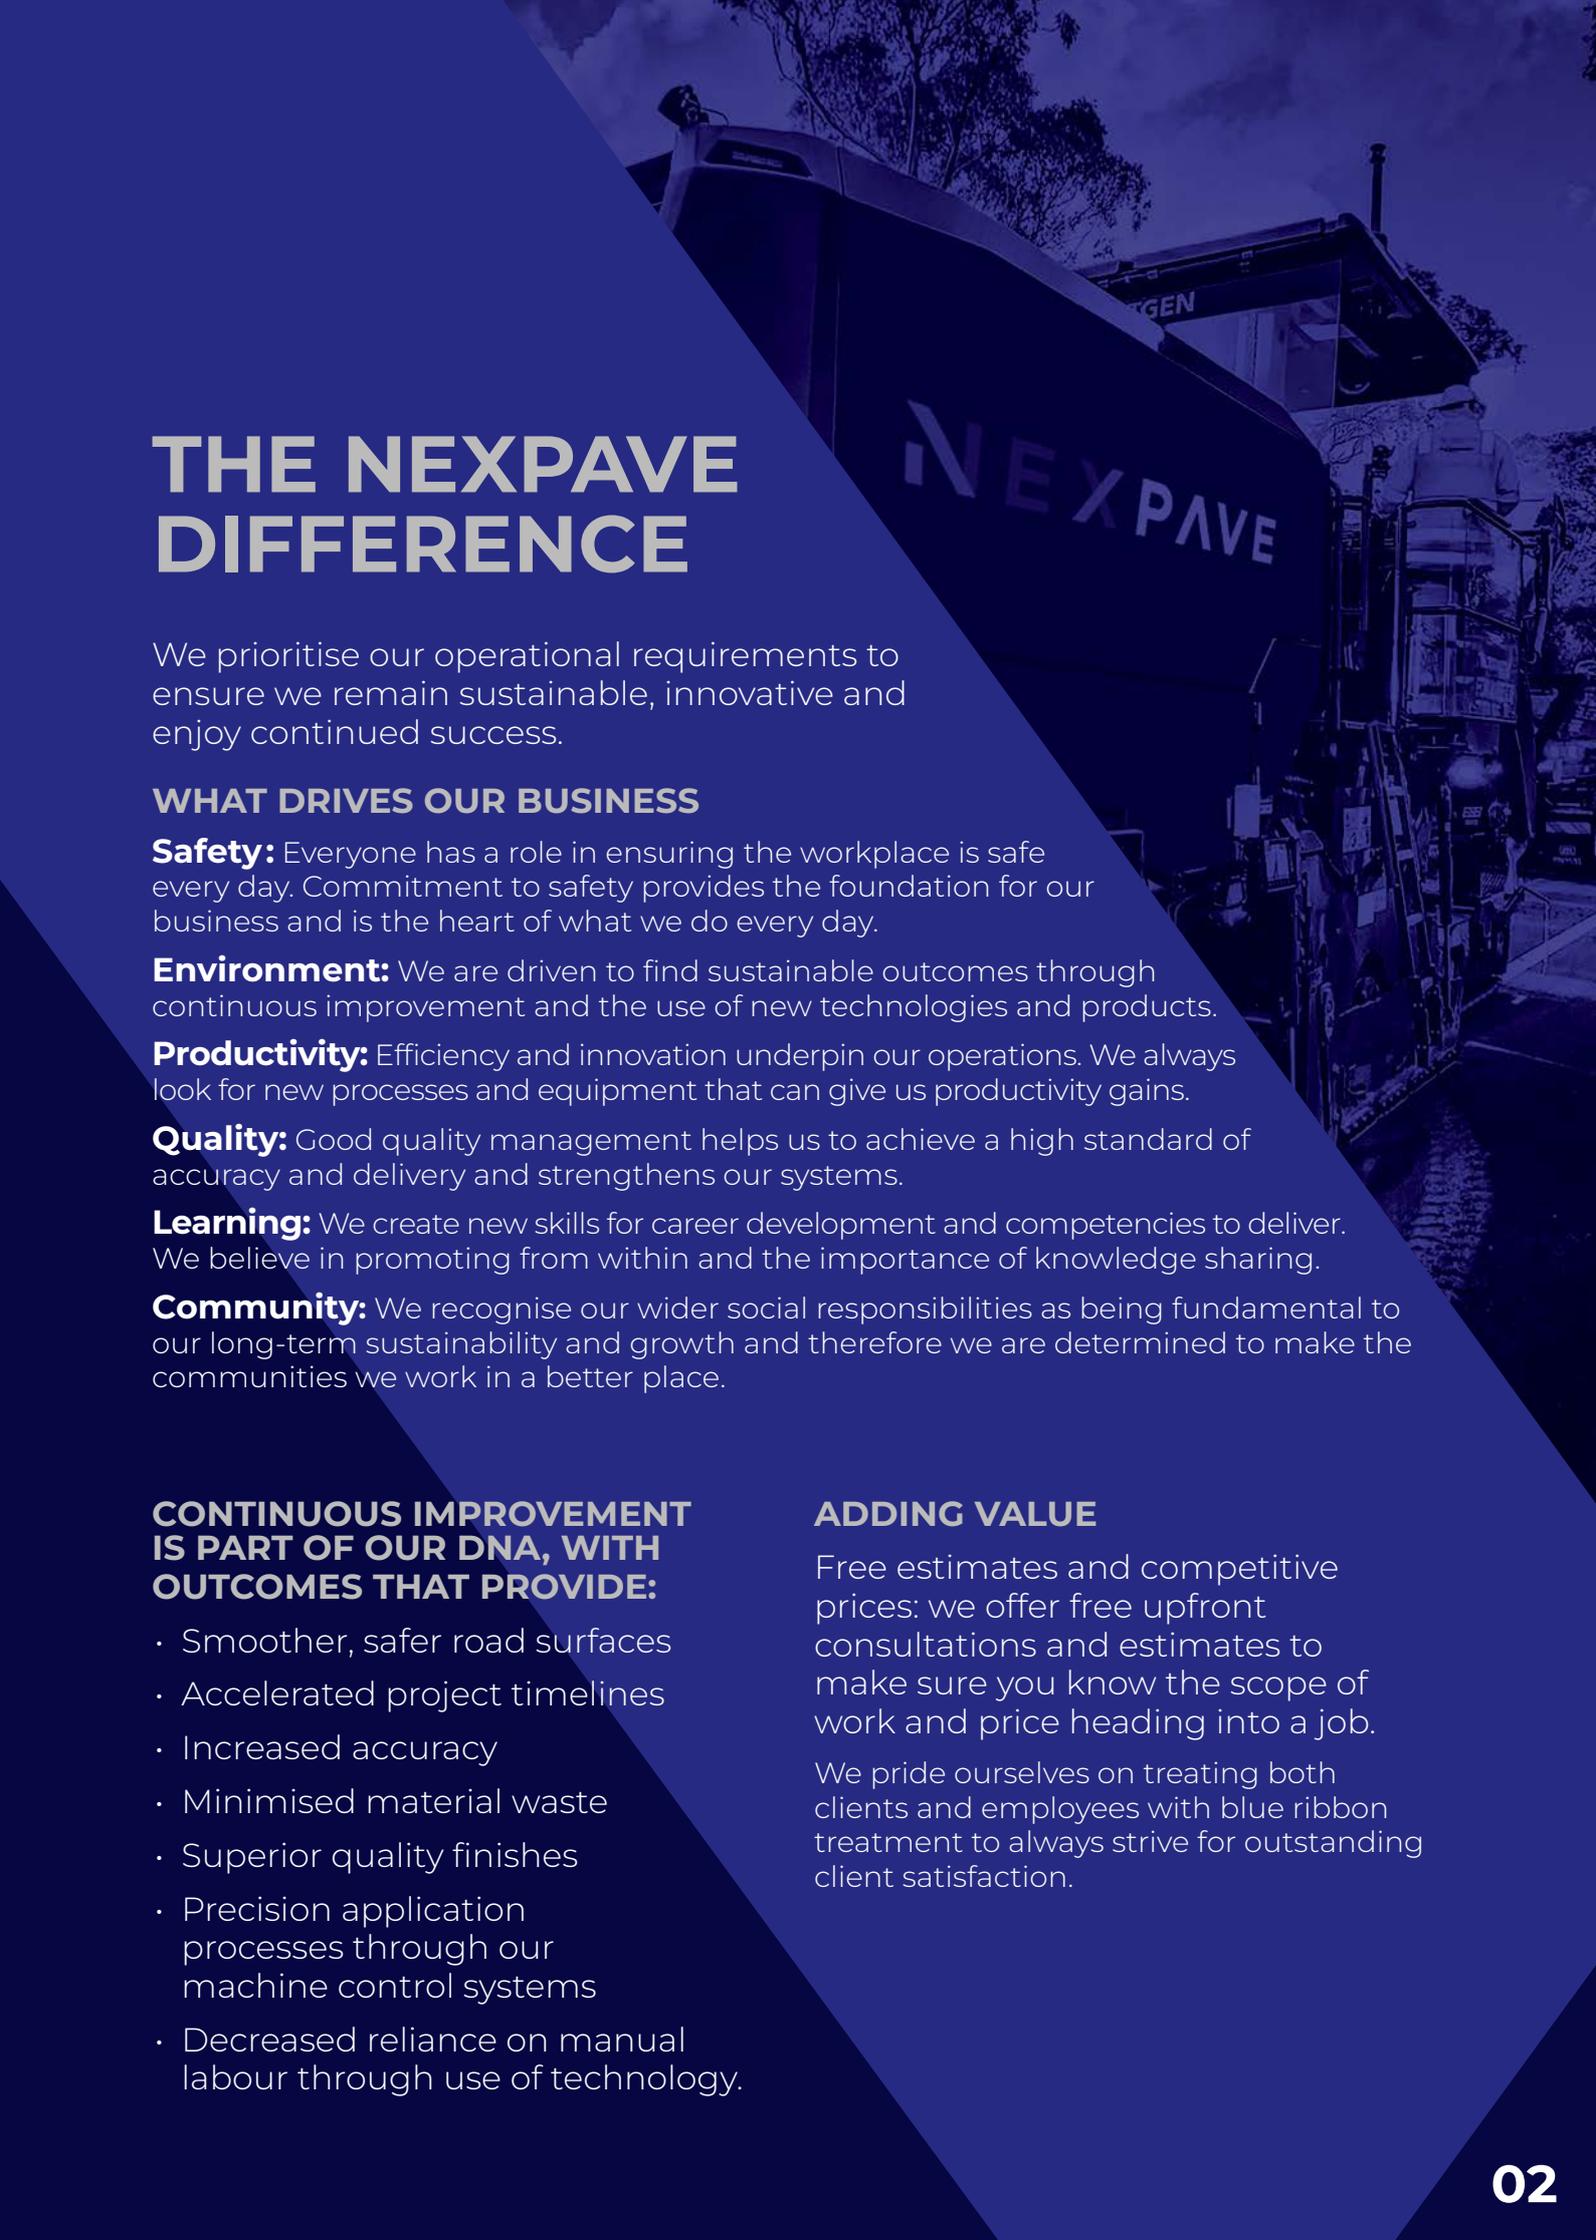

ROAD AND PAVEMENT PROFILING

# THE NEXPAVE DIFFERENCE

We prioritise our operational requirements to ensure we remain sustainable, innovative and enjoy continued success.

## WHAT DRIVES OUR BUSINESS

**Safety:** Everyone has a role in ensuring the workplace is safe every day. Commitment to safety provides the foundation for our business and is the heart of what we do every day.

**Environment:** We are driven to find sustainable outcomes through continuous improvement and the use of new technologies and products.

**Productivity:** Efficiency and innovation underpin our operations. We always look for new processes and equipment that can give us productivity gains.

**Quality:** Good quality management helps us to achieve a high standard of accuracy and delivery and strengthens our systems.

**Learning:** We create new skills for career development and competencies to deliver. We believe in promoting from within and the importance of knowledge sharing.

**Community:** We recognise our wider social responsibilities as being fundamental to our long-term sustainability and growth and therefore we are determined to make the communities we work in a better place.

## CONTINUOUS IMPROVEMENT IS PART OF OUR DNA, WITH OUTCOMES THAT PROVIDE:

- Smoother, safer road surfaces
- Accelerated project timelines
- Increased accuracy
- Minimised material waste
- Superior quality finishes
- Precision application processes through our machine control systems
- Decreased reliance on manual labour through use of technology.

## ADDING VALUE

Free estimates and competitive prices: we offer free upfront consultations and estimates to make sure you know the scope of work and price heading into a job.

We pride ourselves on treating both clients and employees with blue ribbon treatment to always strive for outstanding client satisfaction.
